## SOFTWARE DEVELOPER

Motivated and results-driven software developer experienced in developing and delivering high-quality websites using Python and JavaScript frameworks (Flask, React JS, Express JS) and custom applications for automation, web scraping and statistical analysis. A quick learner, easy to adapt, with a proven ability to drive efficiency, deliver quality work within tight deadlines and collaborate within cross-functional teams.

---

## SKILLS

React js	Python	Statistical Analysis
HTML/CSS	Automation (Selenium & OpenBullet)	Data cleaning & preparation
Flask	Web Scraping	Database management (MySQL & MongoDB)

---

## PROFESSIONAL EXPERIENCE

### Seanotes sh.p.k

May 2024 - Present

#### Automation specialist

Developed and implemented a script for gathering custom information to scrape from specific websites as needed, reducing research time significantly and raising productivity. Developed and implemented automated end-to-end testing config, resulting in reducing manual testing time, easier statistical analysis and ensuring faster, more reliable product releases.

### Inovacioni sh.p.k

September 2023- May 2024

#### Web developer

Developed and maintained web applications using React JS and JavaScript for front-end development. Built and maintained backend systems using Flask. Worked on optimizing website performance and implementing security measures to protect client data.

### Inovacioni sh.p.k

July 2023 - September 2023

#### Web Developer Internship

Collaborated with the design team to implement custom designs and functionality into different websites. Provided technical support to clients, including troubleshooting and resolving any issues in a timely manner.

---

## EDUCATION & CERTIFICATIONS

### Bachelor Degree

Majors: Computer Engineering  
Metropolitan University of Tirana

### Python Developer Certification

Udemy

### Crash Course intro to Machine Learning

Udemy

## EXTRACURRICULAR ACTIVITIES

### Technical blogging

Wrote technical articles on web development and automation.

### Community Volunteer

Automated data collection for a non-profit organization using OpenBullet.
